Here tomorrow—a great new exclusive from Buick

**ADVANCED THRUST**

Moves power forward for arrow-straight going

It puts the engine ahead like the tip of an arrow • It tames "wind wander" and road sway • It sweeps you forward in a hush of luxury • It turns the floor hump into foot space.

**WHAT IT IS**—Buick's big new move! It positions the great new Wildcat V-8 and Turbine Drive way up front over Buick's front wheels.

**WHAT IT DOES**—As the engine went forward, the floor hump went DOWN. And, the forward weight makes wheel response far quicker, cornering far surer, ride far smoother.

**WHY YOU'LL LOVE IT**—It's the closest you can come to sports car handling in a passenger car. Distances shrink before its 3/4-G thrust. Hills disappear. Lean on curves is gone because the frame's gone wider. Winds don't make you wander. It's going at its Buick best!
